**RE: European Chemicals Agency's (ECHA) Registration, Evaluation & Authorization of Chemicals (REACH) (EC 1907/2006) and Substances of Very High Concern (SVHC) Plaskolite Vivak® PETG Sheet**

To Whom It May Concern:

Plaskolite's Vivak® PETG sheet is a polymer exempt from registration under Article 6(3) of REACH. In addition, Plaskolite's PETG sheets are "articles" according to Article 3(3) of REACH, and the substances used to make these plastic sheets are exempt from REACH registration because they will NOT be released "from the produced or imported article(s) during normal and reasonable foreseeable conditions of use (Article 7(1))."

In addition, based upon knowledge of our ingredients and manufacturing processes, the PETG sheets do not contain any of the substances in a concentration above 0.1 % weight by weight (w/w) in the most current list of Substances of Very High Concern (SVHC) by the European Chemical Agency (ECHA) Member State Committee.

This clarification is for informational purposes only, and does not confer the right to the use of the Vivak® trademark in any manner, without a prior written license from Plaskolite.

Please contact us at (614) 294-3281 if you have any questions related to these matters.

Sincerely,

Plaskolite Product Support Team
